

STN: The Final Frontier - Intrepid Class Ship Plugin Read Me

STN: The Final Frontier is an upcoming Total Conversion for Escape Velocity Nova. STN: The Final Frontier will transform the universe of Escape Velocity Nova into the Star Trek universe set during the Next Generation (TNG), Deep Space 9 (DS9), and Voyager (VOY) era. While the Total Conversion is still under construction this plugin will allow you to purchase an Intrepid Class Starship with outfits.

- To Install: Drag the STN: Intrepid Plugin into the Plugins Folder in EV Nova.
- To use: Double Click the EV Nova Application icon and begin your adventure.

The next release by the STN Development team will be a full feature teaser plugin further taking you into the world of Star Trek. With more ships, outfits, planets, systems, and fleets.

For support for this plug and the STN: The Final Frontier TC, please visit our discussion thread on the EV-nova.net forums: [Click Here](#)

Plugin has been tested on EVNova Macintosh Versions 1.0.7 through 1.0.9

Not recommended for EVN v 1.0.9 due to a bug in EVN that causes some outfit pics to display incorrectly.
